

CE PRO PRODUCT SHOWCASE

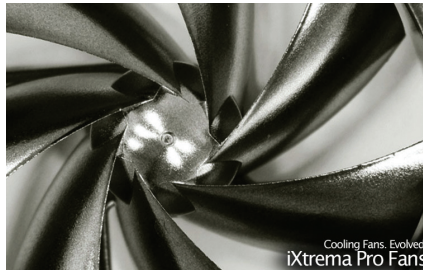

The Kona

Do you hear that? Didn't think so! That's the sound of your equipment being cooled. The Kona will keep any component cool, uses only 1U of rack space and at 15 dB you will not even know it's on.

That is just the beginning. We have an entire line of ridiculously quiet cooling solutions for cabinets, racks and equipment closets. Give us a call today. Your equipment will thank you.

Neptune audio's neptuneEQ™ adds value to your installations and saves your valuable time!

Equalizing an installation is time consuming to say the least! It is something that can make a huge difference to the sound quality though, so your customers really appreciate it when you do it right. Why spend hours doing a computer's work? The neptuneEQ comes complete with it's own microphone, and will get the system set up properly just minutes after pushing the button. NeptuneEQ, your customers will thank you!
