Zephyr II — Rack Evacuator

Maximum airflow
+
Minimal rack space
=
Zephyr II

Our Zephyr II takes up only 2U rack space but flows 100 cfm at only 17 dB! It will leave your rack quietly comfortable!

That is just the beginning. We also have an entire line of ridiculously quiet cooling solutions for cabinets, racks and equipment closets. Give us a call today. Your equipment will thank you.

RIDICULOUSLY QUIET COOLING

Art Diffusor® Model W by Acoustics First

The patented Model W Art Diffusor is a beautifully, hand crafted wooden diffuser. These units are installed in an array to create an acoustical space both elegant and effective. The deep cavities and wells provide for a broader sound diffusion bandwidth. Binary array diffusion has never looked this good!

In Wall Wireless Access Point Fixes Wifi Range Problems

HD Communications Corp. has introduced a new in-wall Wi-Fi Access Point that will not only solve Wi-Fi range problems but also deliver voice, data and power to VoIP phones from a single device.

The HD27000 is a small, PoE-powered 802.11b/g access point that is IEEE 802.3af PoE-compliant.
