

# CE PRO CEDIA PRODUCT SHOWCASE

## Booth 869

### Clarity Prowler

Zektor's new 8X8 CAT5 component matrix switch features full volume, bass, treble and 5 band equalizer control per zone. Audio, video and power is transmitted over a single CAT5 cable up to 1000' with no power required at the receiver. The Prowler also has 3 dedicated inputs of composite which auto convert to component. Integrators can choose between IR, Serial and TCP/IP for control. Analog, optical and S/PDIF digital audio input connections with auto conversion between all formats. Audio can be controlled in analog or digital format. The Prowler is housed in a rackmount 2U chassis and is backed by a 5 year advanced warranty replacement.

### More Than Just an Amplifier

The AudioControl Director Model D3200 is a cool-running and compact (3-rack) sixteen-channel amplifier. It also incorporates a powerful digital signal processor that allows integrators to program graphic and parametric equalization, subsonic filters, and high-frequency protection circuits for each channel. Users can also monitor the status, temperature and protection modes of individual channels. System settings can also be saved and imported or exported.

All AudioControl amplifiers are manufactured at our U.S. factory in the Pacific Northwest.

### NuVo Renovia™

NuVo introduces Renovia™, the quick and easy architectural solution to retrofit with whole home audio. Renovia utilizes the powerline (Homeplug 1.0) to transmit high fidelity audio and bi-directional data from the source hub to from 1 to 12 (50 Watt), in-wall zone amplifiers. Also features: built-in tuners, source integration, and multiple control interface options.

See it at CEDIA, Booth #1965.

### The Kona — 1U Cooler

Do you hear that? Didn't think so!

That's the sound of your equipment being cooled. The Kona will keep any component cool, uses only 1U of rack space and at 15 dB you will not even know it is on.

That is just the beginning. We have an entire line of ridiculously quiet cooling solutions for cabinets, racks and equipment closets. Give us a call today. Your equipment will thank you.

### Kwikset's SmartCode with Home Connect Technology

Kwikset SmartCode Deadbolt with Home Connect Technology enables the door lock to wirelessly communicate with other devices in the home. This allows homeowners to monitor and control their door locks using either a web enabled device or their home automation system. Powered by 4AA batteries, the lock offers true remote locking and unlocking features due its motorized driven deadbolt. The lock will also allow you to check door lock status, automatically arm and disarm your security system, and initiate customized scenes upon entrance and exit.
