Cellular Communication Center (C3)

The 2010 CES Innovation award-winning Cellular Communication Center (C3) allows for remote security monitoring for homes without land lines OR as a backup for when the existing land line is cut. It provides two way communication, allowing the remote telephone monitoring company to call the house to check on the homeowner. No programming is required, incredibly easy to install! Works with almost all Security Systems. Use your preferred cellular provider. Perfect for homes without land lines, vacation homes, and locations that need remote monitoring.

Kwikset's SmartCode with Home Connect Technology

Kwikset SmartCode Deadbolt with Home Connect Technology enables the door lock to wirelessly communicate with other devices in the home. This allows homeowners to monitor and control their door locks using either a web enabled device or their home automation system. Powered by 4AA batteries, the lock offers true remote locking and unlocking features due to its motorized driven deadbolt. The lock will also allow you to check door lock status, automatically arm and disarm your security system, and initiate customized scenes upon entrance and exit.

Why Use The Vibradrive Sound System?

Vibradrive has introduced a technology so powerful and robust, that others don't even stand a chance. The clarity and quality of sound is unbelievable. The vibradrive is an elegant well-built piece of equipment which will let you turn your surface into a speaker. Wood, glass, drywall, etc. can be transformed into speakers. Vibradrive uses a vibrating core to turn any flat surface, which the speaker stands on, into a home speaker. You no longer need a conventional speaker system.
